

*Structural Funds: Investing in Roma*

## **EURoma meeting**

### **How to involve stakeholders for Roma inclusion under the European Code of Conduct on Partnership**

*19-20 September 2013, Sofia*

#### **Rationale of the meeting**

In accordance with Articles 5.1 and 5.2 of the proposed Common Provisions Regulation (CPR) for the European Structural and Investment Funds, each Member State should organise for the Partnership Agreement and for each Operational Programme respectively, a *partnership with representatives of competent regional, local, urban and other public authorities, economic and social partners, and bodies representing civil society, including environmental partners, non-governmental organisations, and bodies responsible for promoting equality and non-discrimination.*

Article 5.3 of the CPR entrusts *the Commission to adopt delegated acts providing for a code of conduct to make sure that partners are involved in a consistent manner in the planning, implementation, monitoring and evaluation of Partnership Contracts and Operational Programmes.*

The European Commission is already working on the elaboration of the European Code of Conduct on Partnership (ECCP) for the European Structural and Investment Funds that provides the framework for the participation of different stakeholders in the Partnership Agreements as well as in the use of Structural Funds at national, regional and local levels; at the same time, Member States are already working on the elaboration of their respective Partnership Agreements and deciding who should be involved in the different phases of the OPs of the future programming period, to what extent and how. In this context, EURoma considers that we are at a critical moment to review the recent developments of the Partnership Agreements and take this opportunity to reflect on how the ECCP can support more efficient partnerships for Roma inclusion under Structural Funds. In fact, the -second version of- the Delegated Act (June 2013) highlights that specific attention should be paid to groups that *might be affected by the programmes but find it difficult to influence them,* - and explicitly refers to Roma among other vulnerable groups.

## **Structural Funds: Investing in Roma**

Furthermore, **partnership** has been a key issue in the previous and current programming periods of Structural Funds for members of EURoma, as it was highlighted in several meetings of the Network. In fact, EURoma members have drawn attention to the difficulties encountered in building effective partnerships and more specifically in building partnerships for Roma inclusion on several occasions.

For this reason the upcoming meeting will provide members of the Network the opportunity to debate and exchange opinions based on the experience and lessons learned of relevant stakeholders that have been previously involved in the use of Structural Funds. It will be an excellent opportunity to review the different roles and analyse diverse models of partnerships, reflecting on their respective advantages and disadvantages, the required conditions for the establishment of efficient partnerships, etc. in order to contribute to the planning and implementation of the upcoming Partnership Agreements and Operational Programmes.

The next meeting of EURoma will therefore address primarily the issue of partnerships: the new opportunities opened by the European Code of Conduct on Partnership and lessons learned thanks to the contributions and experience of relevant actors during the previous and current programming period with a view to supporting better planning, implementation and monitoring for Roma inclusion in the next programming period.

### **Draft agenda**

**Meeting venue:** Grand Hotel Sofia

Thursday, 19 September

|              |  |
|--------------|--|
| 9.00 – 9.30  | Welcoming words from host partners   |
| 9.30 – 9.45  | Presentation of the agenda   |
